FOR TIMELESS BEAUTY MICRO COMPLEX STOPS THE BIOLOGICAL CLOCK \$55 - 2oz

Introducing — MICRO COMPLEX SKIN CARE SYSTEM, a highly advanced, effective treatment system for your skin. Carefully researched and developed in Switzerland for more than five years, these unique new products, used consistently, will bring new youth and glow to the skin, smooth away existing wrinkles and help prevent the appearance of new ones.

The MICRO COMPLEX SYSTEM is based on synergetic principles; natural biological ingredients reinforce natural skin self-rejuvenation and condition it in much the same way that young, healthy skin functions.

These ingredients are Matrix Extract (G.A.G.), hyaluronic acid and the Derma vitamin complex. The natural proteins in G.A.G. absorbs water and forms an insulating layer on the face, protecting it from damaging elements such as pollution, dryness and UV rays. G.A.G. revitalizes damaged tissue, thickens the epidermis layer and increases inter-cellular water pressure, smoothing and invigorating the skin, as well as affecting collagen synthesis, making it more flexible. Research has shown as the skin ages, that G.A.G. levels drop dramatically. This process can now be reversed, giving skin a smoother, more flexible and youthful appearance. Hyaluronic acid influences the skin's ability to absorb and retain water, giving it a younger, flexible appearance and added protection, while the Derma vitamin complex nourishes the skin and enhances the effect of the other ingredients.

CONCENTRATED MATRIX SOLUTION for all types of skin.

This is a concentrated natural biological complex containing G.A.G. (Matrix extract). Renews the skin and smoothes away wrinkles by thickening the upper skin layer. Affects collagen synthesis resulting in softer skin while protecting from harmful UV rays, pollution and dryness. Essential for preserving a youthful, supple complexion. Especially effective used in conjunction with Dinur's Renewal Day Treatment or Renewal Night Treatment.

Directions: *To be applied on a cleansed face only. Apply several drops over your face using your finger tips.*

Massage in circular movements until completely absorbed.

Follow up treatment with either Dinur's Renewal Day Treatment or Renewal Night Treatment.
